1. Introduction

1.1 Healy Program Functions for Systemic Bioenergetic Harmonization

The Healy App uses the 144,000 Gold Frequencies, which were developed together with the Portuguese clinic director and researcher Nuno Nina, who has applied them to thousands of clients. Based on the Gold Frequencies, the Healy App contains more than 100 Individualized Microcurrent Frequency (IMF) programs using these frequencies for harmonizing the Bioenergetic Field. These Healy applications are called “systemic programs,” and their names contain the abbreviation “syst.”

The systemic frequency programs in the Healy App function in three modes, designated “Realtime,” “Resonance” and “Selection.”

Once you select and start a particular program, usually in the first step the Realtime mode is engaged and the currently suitable frequency is analyzed in the Information Field with the help of the quantum sensor and applied in real time. When the App automatically switches to Resonance mode, the current resonance frequencies are determined and applied in real time until they are “no longer needed” by the body. In Selection mode, specific frequencies are analyzed and applied in real time from a frequency pool specifically compiled for the program you selected until they are “no longer needed” by the body.

1.1.1 Realtime Mode

Healy analyzes frequencies in the Information Field with the best resonance to the user in the moment.

1.1.2 Resonance Mode

Healy uses the Resonance analysis function every 10 seconds to determine the progress of the currently applied frequency. As in Realtime mode, these frequencies are individually determined during application. The respective frequencies are applied until the progress, which can be between -100 % and +100 %, reaches 95 % or the maximum time set for the application step. The current progress value is displayed on the Healy App screen.

1.1.3 Selection Mode

Specific frequencies for particular bioenergetic systems are stored in the Selection steps. For example, certain frequencies used to harmonize the Bioenergetic Field of the kidneys are contained in a Selection step.

Frequencies from this specified frequency pool are selected in real time based on the Resonance analysis applied for as long as it takes for the resonance progress analysis to reach 95% or the maximum time set for the application step. A frequency pool can contain up to 400 different frequencies.

1.1.4 Warnings

The Healy App frequencies are delivered through the Healy microcurrent device using the electrodes that came with your Healy. Do not use microcurrent stimulation if you:

- have a pacemaker or an implanted defibrillator, or have any metallic foreign objects in the area of application
- have an open wound or bleeding, a sensory disorder, or have had radiation therapy near the location of the electrodes
- have a fever, new scar tissue, a history of uncontrolled seizures, epilepsy
- are or may be pregnant

Consult a qualified healthcare professional before using Healy if you have any of these contraindications.

Do not place the electrodes directly on the eyes, covering the mouth, on the front of the neck (especially the carotid sinus) or on the chest and the upper back or crossing through the heart. These could cause a dangerous condition.

During the application mood changes can occur, such as a feeling of heaviness or lightness. In such cases, you should continue the application for a few minutes until you feel normal again. If the disturbing symptoms persist even after a few minutes, you should discontinue the application.

Within the framework of holistic healing approaches, certain interactions (e.g., strengthening of the body's own mechanisms) are possible through frequency applications.

If you are using Healy while taking medication, we recommend that you have the dose periodically checked by your doctor, especially if you are taking the following medications:

- Blood thinners
- Antidiabetics
- Blood pressure lowering medication
- Hormones (especially thyroid hormones)
- Beta blockers

Healy and its applications are only suitable for adults over the age of 18. Insufficient data is available for use by minors. Always use your Healy in accordance with the Instructions for Use, and pay particular attention to the Safety Notes they contain.

1.2 Supporting Factors in Combination with Frequency Applications

In order to support the positive effects of frequency applications, we recommend that you integrate the following routines into your everyday life:

- Drink at least 8 glasses of pure, healthy water in the morning and 4 glasses in the afternoon (avoid drinking water 30 minutes before and after meals).
- If possible, release bioelectric potential by earthing: walking barefoot outside for at least 15 minutes (this ensures natural electrical potential equalization).
- Exercise in fresh air to activate the energy flow - you can use your Healy while doing this.
- Enjoy natural and balanced nutrition
- Make mindful and conscious use of frequency programs. Avoid extremes - do not exceed two to three frequency applications per day

2. Healy IMF Programs

2.1 Gold Cycle

The Gold Frequencies were developed together with the Portuguese clinic director and researcher Nuno Nina, who has applied them to thousands of clients for over 15 years. The Gold Cycle is based on three programs: Balance, Being and Pure. Balance is designed to harmonize the Bioenergetic Field of the physical, Being the emotional body, while Pure promotes recovery from environmental causes of energetic imbalance. These three programs can be used alternately every day to harmonize your Bioenergetic Field. The Care program can be used when you feel your system is particularly challenged.

With the Healy IMF applications, the technology, expertise and experience of Nuno Nina are now available to you at all times.

IMF = Individualized Microcurrent Frequency

Program name	Description
Pure	The Pure program is the ideal starting point for anyone using the Healy App IMF programs for the first time. It is designed to help your body's energy field to recover from the bioenergetic effects of environmental factors.
Care	A weakened Bioenergetic Field is frequently associated with poor health. Strengthening your energy field through appropriate exercise, healthy nutrition and pure water, and restoring bioenergetic harmony are all ways of caring for your inner and outer health.
Balance	The fine balance of the various bodily systems is very important for our wellbeing and health. The Balance program refers to bioenergetic harmony. It is an ideal program for a deep bioenergetic harmonization of the body's overall energy field.
Being	What the program Balance is for the body, Being is for our soul. It is designed to help you remain centered during life's turmoil.
Energy	Performance needs support. Whether you are a well-trained competitive athlete, a stressed-out manager or a busy mother, Energy increases your ability to respond to life's demands.
Relax	Relax stands for harmonizing your stress response. Stress can be both the result and the cause of imbalances in the mind and body that can undermine your health and wellbeing. Modern life keeps many of us from letting go of our daily sorrows and stress, so support for you in this area can help you restore your sense of balance.
Release	There are many different causes of discomfort. In this program you work systemically to address the energetic source of the discomfort in the Bioenergetic Field.

2.2 Learning

Learning succeeds particularly well when it is fun, easy and relaxed.

Today, even young adults face big challenges: examination stress, mental strain, grade pressure, social anxiety and others. This can manifest itself in concentration problems, burnout, compulsive and self-defeating behaviors, lack of motivation or unpredictable moods.

Healy provides IMF programs for harmonizing the Bioenergetic Field, which can support memory, concentration, stress reduction, problem-solving and creativity.

University and career training students can particularly profit from Healy frequency technology during exam time. Healthy habits can be supported in the Bioenergetic Field as well as learning and concentration.

2.3 Fitness

With today's frequently sedentary lifestyles, maintaining fitness is a good means of balance for physical, mental and emotional wellbeing. Regular physical activity should always be followed by a recovery phase. In addition, it is essential to maintain a healthy, balanced diet rich in nutrients and fiber. Fitness is also characterized by a sense of becoming balanced and centered within ourselves.

It is always important to feel supported and centered, and all the more so during times of stress, burnout or grief. The Healy Fitness programs have been developed with this basic idea in mind. These programs include the body as well as the mind; we strongly believe that a balanced, sustainable and holistic psycho-physiological constitution must encompass both of them.

Our Healy Fitness IMF programs therefore concentrate on the harmonization of the Bioenergetic Field in four essential areas: muscles, performance, weight and relaxation. This combination is therefore suitable for everyone who enjoys sports and fitness activities.

2.4 Job

People leading a stressful working life often feel stuck on a treadmill. They may be in a situation where they have little opportunity to focus on their own needs and wants. External commitments may seem more important than their inner voice calling for a break or a change of direction. If this call is ignored for too long and if one's own limits are permanently exceeded, the body may adopt a "refusal attitude" that can lead to the deactivation of entire functional areas. This in turn can lead to prolonged fatigue, exhaustion, sleep disruption and hypersensitivity to stress.

Healy IMF applications can provide valuable harmonization of the Bioenergetic Field when leading an active professional life, offering programs for people leading a stressful everyday life.

2.5 Sleep

We spend about one third of our life sleeping. The need for sleep varies for each individual, but on average it is about 7.5 hours per day. Depending on the age and life situation, 4-12 hours of sleep may be required, in one go or spread over the day. Sleep is vital and serves to regenerate the body and process the impressions of the day. Disturbed sleep can throw us off balance and even make us sick in the long run. Longer lasting sleep disturbances can lead to physical fatigue, health deficits and a weakening of the immune system. In addition, poor sleep quality can also have a negative emotional effect and strain our psyche.

Healy IMF applications are designed to harmonize your Bioenergetic Field to quickly calm down after a long day or after the stress of everyday life and promote deep and restful sleep.

2.6 Beauty

The skin forms the physical boundary between the inner and outer worlds. It is not only a respiratory organ, but also a visible “showpiece” representing beauty, youthfulness and health. The outer beauty is decisively influenced by the inner beauty, which in turn is influenced by factors such as intestinal health, inner balance and bliss.

Nuno Nina’s experience in harmonizing the Bioenergetic Field for inner balance and relaxation as well as his expertise in defining the appropriate frequencies for harmonizing the Bioenergetic Field of the skin have been integrated into the Healy Beauty programs.

2.7 Skin

The skin is our largest organ and fulfills many vital functions. It serves as a storage center for lipids and water and has metabolic and protective capabilities.

Using Healy IMF applications, you can obtain harmonization of the Bioenergetic Field for different tissues.

The skin of your face may reflect an inner conflict, which can be a mental imbalance or a possible food sensitivity. Healy frequency applications can target harmonization of the Bioenergetic Field for skin purity.

If an injury does not heal smoothly, scar tissue develops and can act as a source of disturbance. An untreated scar can create bioenergetic blockages, which can strain both the body and the soul of the affected person. Healy frequency applications can support the coherence of your Bioenergetic Field to help you to overcome these stresses.

Order No.	Program name	Technology	Duration	Frequency
1	Support Skin local	MC	30 min	1 x Daily

2.8 Mental Balance

The mental balance and the subconscious of the human being are complex and host all feelings and thoughts, as well as all mental characteristics and the specific personality traits of a person. The human being is a unity consisting of body, mind and soul. Thus, as psychosomatics shows, people can have physical complaints caused by mental imbalances. This influence also works in the opposite direction, so that the body, for example the intestine, has a great influence on a person’s mental balance. If this colloquially called inner or soul life is intact, an individual is balanced and vital. Traumatic experiences are partly unconscious experiences that can reach from the past into the present. They continue to have an effect on the physical as well as the mental and spiritual level, because the trauma has not been processed, integrated or dissolved. To bioenergetically harmonize your mental balance with Healy IMF applications, we have created the following programs for you:

Order No.	Program name	Technology	Duration	Frequency

2.9 Bioenergetic Harmony 1

The categories “Bioenergetic Harmony 1” and “Bioenergetic Harmony 2” contain frequency program compilations of the most common applications in everyday life, selected based on the experiences of our users. The use of terms like “Immune system” etc. refer to the disharmonies in the Bioenergetic Field that frequently underlie the symptoms associated with these terms. They are not intended to claim or imply that harmonizing the Bioenergetic Field will have a direct effect on those expressions or will cure, treat, mitigate or prevent any diseases associated with them. The Healy IMF programs only address disharmonies in the Bioenergetic Field.

2.11 Meridians 1

Traditional Chinese medicine (TCM) claims that the life energy (Qi) flows in channels, or meridians. According to this concept, there are twelve main channels and each meridian is assigned to a functional circle (organ system). The corresponding acupuncture points are therefore threaded onto the meridians like pearls on a string. Furthermore, acupuncture points have relationships or connections to organs or parts of organs which the acupuncturist activates by stimulation and thus endeavors to positively influence the state of the organ.

The individual IMF programs according to the meridian system of Dr. Reinhold Voll are designed to harmonize blockages in the Bioenergetic Field of the individual meridians.

2.13 Chakras

The chakra system is thousands of years old and references to it can be found in many cultures all over the world. The Hopi, Inca and Maya cultures, for example, make references to the chakras.

A large part of Asian teachings and religions are based on the principles of the Indian chakra teachings. The influence of the Indian chakra teachings reaches so far that they form the foundation for Buddhism and Hinduism, as well as for various techniques of energy and body work, such as Yoga, Tai Chi, Ayurveda, TCM and spiritual healing.

Furthermore, spiritual as well as energy practitioner circles have adopted these teachings as the basis of many methods of energy and healing work.

The chakras serve the physical body and the subtle body (the aura) as mediators and it is thought that they function as a kind of transformer.

According to this model, the chakras are connected with the different aura layers and the meridians (energy paths) of the body and are also able to absorb energies of the cosmos and the ethereal world. Absorbed energies (vibrations) can be either a "positive" influence (beneficial and useful) or a "negative" influence.

The chakra teachings say that there are seven main chakras which are located along the spine or in the vertical central axis of the body, following the Kundalini energy, from the root chakra to the crown chakra. According to the chakra system, the Kundalini power rises upwards through this assumed energy channel (called sushumna or hara line).

The seven main chakras are characterized by certain functions and colors. For example, the lowest of the seven chakras, the red root chakra, indicates the basic trust level of a person. It stands for a fundamental part of the developmental process, because the basic trust level is established at the beginning of the child's life. The crown chakra, the highest of the chakras, which is usually depicted in white or slightly violet, reflects, among other things, the knowledge about the universe that a person has collected with age. The colors of the chakras correspond to their individual vibration frequencies.

In addition to the subtle interpretation of the chakras, the main chakras can be assigned physically to the organs and glands with which they are supposed to be connected. Physical and mental challenges often lead to changes in these energy fields.

Using intuition, one can perceive the existence and the position of the chakras and explore one's own energy field. In principle, anyone can learn how to feel energy fields under professional guidance and with practice by attending appropriate seminars. Often more and more sensitive abilities are developed in the process of an energetic initiation and with progressive use of the different methods of energy work. The Healy IMF chakra programs aim to bioenergetically harmonize these central energy centers and bring them back into their natural balance.

2.14 Bioenergetic Defense

These IMF programs are designed to energetically harmonize electrosensitivity, stress, geopathic disturbances or negative influences and protect you from energetic breakdowns. The Bioenergetic Defense program group unfolds its effect directly in the Information Field. The Information Field has many different names, such as Morphogenic Field, Akashic Record etc. The Information Field is a field surrounding us everywhere at all times, interacting between the mental and physical world.

In principle, no electrodes are required when using these programs. However, you can intensify the effect of the programs by using electrodes.

2.15 Deep Cycle

The Deep Cycle IMF programs are in daily use in the Uno Vita - Klinik for Integrert Medisin (Integrated Medicine Clinic) in Oslo, Norway, and many of its clients use them at home as well. The Deep Cycle IMF programs are a variation and further development of the popular Nuno Nina Gold Cycle IMF programs and can be beneficially combined with them for harmonizing the Bioenergetic Field. The development of the Deep Cycle IMF programs is the result of Jan Fredrik Poleszynski's experience in microcurrent frequency applications since 2009 and is closely connected to the integrative thinking of Nuno Nina and his Gold Frequencies. The Deep Cycle IMF programs have a special position in applications in the Bioenergetic Field and are generally more comprehensive than the Gold Cycle IMF programs.

2.15.1 Short Description of the Deep Cycle Programs

Here is a short description of the Deep Cycle IMF programs. However, you should not feel limited by these descriptions, because the programs offer many more possibilities on an energetic level.

Based on Jan Fredrik Poleszynski's experience, clients go through certain cycles during applications. There are daily, weekly and monthly cycles as well as the classic application cycles like energetic detoxification, harmonization of key organ systems and working with the energetic root cause. It can therefore be very helpful to find out which "cycle" you are currently in, so that you can select the appropriate program.

2.15.2 Preparatory Programs

Program	When	Affirmation and intention
First Application	At the first application, to establish a connection and to get a feeling for frequency applications.	Feel good and be touched.
Second Application	At the second application, unless the first application was too intense.	My journey has begun.
Third Application	As soon as you're ready for a more intense application.	Powerful waves of change are coming to me.

2.15.3 The Deep Cycle Programs

Program	When	Affirmation and intention
Breath of life	There are energetic issues associated with lungs and their surrounding organs, including the breast, along with feelings related to weakness and occasional sad feelings.	My breath is a reflection of the breath of the universe.
Clean all	Appropriate for follow up after energetic purification as energetic support for all purification pathways. It is advisable to include this program in a sequence of applications, as any release on any level of the system often causes a need for purification. To release old blockages from the energetic body and mind.	My body is pure, I feel comfortable in it.
Digest all	Recommended for disharmonies in the Bioenergetic Field of the digestion that block further progress. For this program, the adhesive electrodes can be used. They should be placed at the level of the ankle on the front side of the foot acupuncture point ST 42.	I accept my past, digest and integrate it.
Go to the roots	Only use when the energetic symptoms have subsided and the energetic recovery process has begun. All essential energetic functions should work normally. The energetic causes on the mental level and emotional patterns will now be addressed. This program is suitable as the conclusion of a series of applications.	I feed my roots and grow into a strong tree.
Free flow	To energetically harmonize the Bioenergetic Field of the circulation. It is suitable for use after basic harmonization of the Bioenergetic Field of the kidneys and lungs, as well as for general energetic stiffness.	My movement, blood flow and circulation are powerful.
Kidney all female & Kidney all male Hering's law states that: "All improvement occurs from within out, from the head down, and in the reverse order in which the symptoms have appeared."	To harmonize the Bioenergetic Field of the kidneys and harmonize energetic processes which are related to the kidneys according to Traditional Chinese Medicine. The acupuncture point K5 to K6 (below the ankle on the inside of the foot) is suitable for electrode placement. K5 to K6 (or SP6) are close to the tibial nerve, which can also be indirectly stimulated.	My energy flows freely.
Caution: Do not use SP6 or K5-K6 stimulation during bleeding, which also includes menstruation.		
Pure Calm	It should contribute to inner peace, emotional and spiritual balance.	I am connected to everything.
Renewal	If energetic harmonization is desired.	Everything is restored, pain is temporary.

2.15.4 Deep Cycle H

Deep Cycle H (Harmonic) is a holistic system for all levels of your existence. It is meant to help you flow with the cycles in your life and to support and adapt to changes. Everything in nature and the universe is developing in cycles! Everything is interconnected; nature seeks harmony on every level. There are some key elements that must be in place to flourish and adapt to the ever changing and developing universe around us and inside of us.

Every program of the Deep Cycle H contains harmonic frequencies, which are the result of 10 years of research and application by Jan Poleszynski in his practice, including frequencies and harmonics that originate from nature, from our planet, from the sun as well as fundamental cosmic frequencies, frequencies that connect you to the earth and basic resonances of the atmosphere and surrounding planets. These frequencies are informational “highways” helping to bring you in harmony with yourself and with nature.

The Deep Cycle first, second and third application programs are not contained in Deep Cycle H; instead, we recommend using the Sensitive IMF program for new users.

Program	When	Affirmation and intention
Sensitive	Well suited for sensitive people, including those affected with electro sensitivity. If you are particularly sensitive to your environment, it is a good idea to run this program for a period of several days until you feel some relief. If you are new to frequency application, this would be a good program to start your journey. If you do not perceive any changes on the day after application, it is time to move on to the next program. Many users report that they sometimes feel the need to revert to the Sensitive program, and this may indeed be a good idea, specifically during periods of high physical stress that may be caused by traveling or by exposure to electromagnetic noise.	The environment is my soil.
Energy Work	The main purpose of the Energy Work program is to increase the energetic harmony. It is recommended to use it in the morning. Note: This program should not be used when your body is stressed out; you should feel a certain level of balance before using it.	An abundance of energy is flowing.
Pure Energy	The main part of the Pure Energy program is focused on balancing emotions, spiritual balance and supporting wellbeing.	All is energy.

2.16 Healy Watch Programs

The Healy Watch measures your bioenergetic status by analyzing BRA (Bioenergetic Rhythm Analysis), HRV (Heart Rate Variability), sleep and other parameters. The evaluation of these parameters in the Healy Watch App yields recommendations for Individualized Microcurrent Frequency (IMF) programs that support the harmonization of your Bioenergetic Field.

2.16.1 Healy Watch Meridian Programs

The concept of the Organ Clock goes back thousands of years and is based on Traditional Chinese Medicine (TCM). Its basic idea is that every function of the body is linked to a specific time of day on an organism's "internal clock:" i.e., each organ is at the peak of its functioning during a two-hour time period every day.

The Healy Watch Meridian programs are Individualized Microcurrent Frequency (IMF) programs for the respective organ that is active at the current time of day, supporting the harmonization of its Bioenergetic Field.

2.20 Wellbeing

The Wellbeing program group consists of three well-aligned Healy IMF programs. They contain frequency spectra, each of which relates to the body, mind and spirit and is intended to bring them into harmony with each other. The frequencies of the Body program are based on a proven database of basic resonances of the body's Bioenergetic Field.

The Mind program is developed on the basis of the traditional Solfeggio frequencies, which are intended to harmonize the mind and communicate with the cosmic spirit. The Spirit program contains octavated resonant frequencies of the spectral colors of light.

The three Wellbeing programs can be used individually, but also together for optimal synergy: for example, Wellbeing-Body on Mondays, Wellbeing-Mind on Wednesdays, and Wellbeing-Spirit on Fridays. For a more intensive application, all three programs can also be used together on the same day. This procedure is also suitable for an intensive 21-day Healy Wellbeing experience.

2.21 The Power of Three

The Power of Three is a set of Healy IMF program groups, each containing three programs. It is based on the ancient system of three natural energetic forces expressed in the bioenergies of Ayurveda. The three programs in each group support and enhance each other and create a strong bioenergetic synergy if used alternately. Simply use the first of the three programs in a group on Monday, the second one on Wednesday and the third one on Friday to experience the bioenergetic Power of Three. They are designed for a 9 week protocol in total.

The Bioenergetic Rebalance Group is particularly designed to be applied at difficult energetic times. Followed by Universal Frequencies and then Digital Ayurveda, they create Power of Three-Square synergy. Use each program group for three weeks in addition to the Healy IMF programs you are currently using.

2.21.1 Bioenergetic Rebalance

These Power of Three Healy IMF programs are designed to rebalance your energy field after a bioenergetic event, or anything that might negatively affect or challenge your Bioenergetic Field. Not only energetic or emotional causes can cause disturbances in the Bioenergetic Field, but also physical events like accidents, loud sounds, vaccinations, or physical assaults. One by one, these three programs harmonize the underlying energetic conflicts, the energetic defense mechanisms and the bioenergetic ambience that constitute the energetic foundation of the intestinal flora, which in turn affects the psychic and energetic balance. In this manner, the energetic balance and wellbeing can be restored.

Order No.	Program name	Technology	Duration	Frequency
1	Conflict Balance	IMF	54 min	1 x Daily
2	Defense Support	IMF	66 min	1 x Daily
3	Friendly Flora	IMF	66 min	1 x Daily

IMF = Individualized Microcurrent Frequency

Program name	Description
Conflict Balance	Conflicts can cause emotional, mental and physical stress. Not only the bioenergetic, but also the physical field can react to stressors by hidden and permanent conflicting processes. This program is designed to harmonize these conflicts on all levels.
Defense Support	Conflicts and external stressors activate our bioenergetic defense system and may cause it to get out of balance, overreact or be weakened. Harmonization can rebalance the Bioenergetic Field to find the appropriate response to external challenges and change.
Friendly Flora	The Bioenergetic Field consists of the fields of the organism and the Bioenergetic Field of all its microorganisms. A synergistic energetic relationship between these fields is the basis for bioenergetic harmony and wellbeing. Additionally, this program is designed to support emotional and mental balance.

The Healy IMF Rebalance program was designed to support the harmonization of the Bioenergetic Field after stressful events. To measure the effect of the Bioenergetic Rebalance program group including the Rebalance program, we conducted a Randomized Controlled Trial (RCT). This trial encompassed approximately 600 healthy Healy users and employed three internationally recognized survey methods on wellbeing (WHO-5), stress level and concern burden to evaluate the subjective wellbeing of the participants. The group of nearly 300 participants who applied the Bioenergetic Rebalance Healy IMF programs in addition to their usual Healy programs had statistically relevant better performance in wellbeing and stress reduction than the control group, which continued to apply their Healy devices as usual. This is particularly significant because many of the participants in the control group already were using their Healy programs primarily to improve their sense of wellbeing. This demonstrates the additional value of the Bioenergetic Rebalance program group including the Rebalance program, especially after stressful events.

The study also revealed another benefit of the Bioenergetic Rebalance programs: Participants who underwent the emotional stress of vaccination in the past year benefited more from using the Bioenergetic Rebalance programs than individuals who were unvaccinated. For all parameters measured, average effect size (Cohen's d) was much higher in vaccinated than in unvaccinated participants, see **Figure 1** below.

2.21.3 Digital Ayurveda

The group of three Healy IMF programs Kapha, Pitta and Vata are a prime example of the Power of Three principle. Applying each of them once a week harmonizes all aspects of the bioenergetic system. You can also choose one or two of them according to your Ayurvedic personality type or according to a specific bioenergetic imbalance.

Kapha

According to the tradition of Ayurveda, Kapha is located in bones, muscles, and tendons. It acts as the 'binding agent' to keep the cells together. It keeps the body moist. It relates to the joints, skin hydration and defense. When in balance, Kapha is synonymous with love, calmness and forgiveness.

Pitta

According to the tradition of Ayurveda, Pitta is responsible for stability of the body and mind. It regulates body heat, digestion, absorption and assimilation, lightens the appetite, gives vitality and the ability to understand. It nourishes the body.

Vata

According to the tradition of Ayurveda, Vata is located in the abdomen below the navel; it encompasses the colon, pelvis, the pelvic organs, the thighs, skin, ears, nervous system and lungs. It is responsible for movement of body and mind. Sensory impulses, breath, excretion and speech are some of its main functions.

2.22 Bioenergetic Boost

The Bioenergetic Boost program group contains programs that were developed based on the latest research and in connection with current global issues. We at Healy World are continuously conducting clinical and scientific research together with our international team and our worldwide research partners. Our goal is to find answers to today's global problems, to open up new application opportunities and to further increase the effectiveness of the Healy IMF programs. This approach keeps delivering new Healy applications, some of which we consider so essential that we make them available to all Healy users free of charge. We are including these programs in the Bioenergetic Boost group of programs so that everyone can use them.

In recent research, Dutch scientists conducted comprehensive data analysis from the disciplines of physics, biology and cosmology; they discovered a universal frequency pattern that, according to their theory, is the basis of all matter and life. These frequencies are largely based on the Tetraktys, the cosmological and mathematical universal key that the ancient Greek philosopher and mathematician Pythagoras is said to have discovered over 2,500 years ago and which also forms the basis of ancient harmonic theory.

We have combined the 214 coherent principal frequencies from these patterns into the Healy Coherence IMF program.

Order No.	Program name	Technology	Duration	Frequency
1	Bioenergetic Boost	IMF	78 min	1 x Daily
2	Coherence	IMF	54 min	1 x Daily

IMF = Individualized Microcurrent Frequency

Program name	Description
Bioenergetic Boost	Supporting, balancing and harmonizing the Bioenergetic Field
Coherence	Coherence is the ability of a person to respond flexibly and as a whole to the stimuli of their environment, while also vigorously pursuing the meaning of their existence. Coherence is a measure of inner consistency and balance as well as the ability to communicate and interact with the external world. Coherence corresponds to a strong sense of purpose and the power to be able to create an inner and outer order. The interaction between the parts of an organism, the harmonious relationship between organism, mind and spirit, and of the individual to the community – this is what we call coherence. The application of the Healy Coherence program is designed to strengthen the sense of coherence.

2.23 Natural Cycle

Our life is profoundly influenced by the phases of the moon, the sun and the earth. The frequencies of these celestial bodies determine our bodies, our emotions and perhaps our destiny since the moment of our birth.

But most of us today are leading lives that are moving too fast and causing us to drift away from our natural rhythms. Our body and our mind are sensing these conflicts and many of us experience physical and emotional imbalances.

With the Healy Natural Cycle program group, we can address these challenges by bringing our lives back into alignment with the natural cycles and flow. The Healy Natural Cycle programs contain completely new frequencies, developed and compiled by Nuno Nina, the creator of the Healy Gold Cycle.

The application of the Natural Cycle program must begin on so-called trigger dates (e.g. a change of seasons, an equinox, etc.), when ideal energetic conditions occur in the solar and lunar cycles. At the beginning it is also necessary to determine the organ meridian with which the application should be started. These calculations are conveniently and automatically performed by the HealAdvisor Natural Cycle module, which also reminds the user at the right time for the application when the organ of a particular meridian is active.

Drinking a glass of pure water 30 and 15 minutes prior to the meridian activation program and 15 minutes afterwards will optimally prepare you to use the frequency programs.

In the first weeks of a Natural Cycle, the daily stabilization program is applied. When the stabilizing effect becomes noticeable (easy and refreshed waking up, no problems with bowel movements, timely and easy falling asleep), you switch to the stabilizing program according to the solar cycle. The HealAdvisor Natural Cycle module adjusts this automatically as well.

Likewise, the HealAdvisor Natural Cycle module determines the respective change to the next organ on the Organ Clock; the application takes place each Tuesday and Friday. If the predetermined time for an organ falls within the usual sleeping time, you can skip this session.

Natural Cycle should also be terminated on a trigger date as soon as you feel that you are in harmony with your natural cycle. The calculation of this date is also performed by the HealAdvisor Natural Cycle module.

You can start a Natural Cycle protocol again on each trigger date; Nuno Nina recommends repeating it at least twice a year.

Stabilization Programs

1	Stabilization Daily	IMF	30 min	1 x Daily
2	Stabilization Solar	IMF	30 min	1 x Daily

Program name	Description
03:00-05:00 寅	The Lung meridian is called the “Master of Qi”, meaning that it can balance the flow of biological energy and breath in the whole body. It supports the cells as they engage in the energetic exchange of taking in oxygen and releasing waste. The time of regeneration for this important qi modulating meridian is between 3am and 5am. The distribution of qi and ying allows a good lymphatic and energetic flow that happens in the middle of the night when the body is in a very passive or Yin state.
05:00-07:00 卯	The Large Intestine meridian is called the “Water Purifier” since it supports elimination of waste during the day. The large intestine regulates the health of skin, joints and mucosae and regenerates every morning between 5am and 7am. This particular time is very important to rebalance our microbiome and redistribute fluids that will be then eliminated during the day or reabsorbed as hydration.
07:00-09:00 辰	The Stomach meridian is also called the “Great Granary” or grain storage due to its connection with ingested food. It is not only very important to balance digestion, but also supports good sight and eye coordination as well as alertness. The stomach needs to regenerate every morning between 7am and 9am and if well reactivated, it produces enough yang energy to maintain a good body temperature.
09:00-11:00 巳	The Spleen meridian relates to Yi or “Thought and Memory” and is traditionally associated with assimilation. It plays a role in regulating GuQi or digestive energy, allowing a long-lasting energy supply for the day. The spleen energy is regenerated every day between 9am to 11am. During this time, it is important to allow the energy to flow from the inside to the outside and not vice versa, therefore heavy meals are to be avoided.
11:00-13:00 午	The Heart meridian is considered the body’s “Emperor Spirit”, the source of consciousness and pure self. The typical state of vacuity dear to the Taoists and Buddhists is historically represented by the empty resonant heart, devoid of stress and passion. The opportunity to empty the heart and brain and favor the transit of energy to the digestive organs is every day between 11am and 1pm. This short break for the brain allows the Heart meridian to promote balance of cognitive and energetic functions.
13:00-15:00 未	The Small Intestine meridian is the seat of “Fire” and digestive energy. It is in the small intestine that the energy for attention and concentration is produced. During this part of the day the Yang Qi has an increased opportunity to circulate in order to better assimilate food and transform it into GuQi or the energy from food and drinks. The regeneration time for the Small Intestine meridian is every day between 1pm to 3pm.
15:00-17:00 申	The Bladder meridian is thought to balance both the output of fluids and the external flow of energy in the nerves. The Bladder meridian in fact produces the largest distribution of qi along the spine and from the head to the toes. The regeneration time for the Bladder meridian is every day between 3pm to 5pm.
17:00-19:00 酉	The Kidney meridian is called the “Root of Life”, as water is its element and the most vital component of life and youth. It is the storage of dense energy called Jing, the type of less-flowing energy that constitutes glands and tissues. A loss of Jing is visible through a lower quality of hair, bones and teeth. Between 5pm and 7pm the Kidney meridian can be calmed through the use of juices, activated water or a warm non-caffeinated beverage.
19:00-21:00 戌	The Pericardium meridian supports the microcirculation of qi through the body’s vascular system. Due to the daily chrono-biorhythm, the effect of the qi in the periphery begins to travel towards the inner organs at 7pm, thus allowing for an inner energetic nourishment of dense organs.
21:00-23:00 亥	The Triple Heater meridian is comparable to the metabolism in the western view. A healthy triple heater helps maintain a normal temperature and regulate a good balance between O2 and CO2 through breathing. The Triple Heater meridian reduces its functions between 9pm and 11pm. A typical sign of the need to recuperate is when you yawn during this 2-hour period.

Program name	Description
23:00-01:00 子	The Gallbladder meridian is called the “General” and thought to be the organ of focused energy. It is related to brain function, magnetic energy (from iron metabolism) and willpower. It is thought to be related to energetically balanced eyes and reflexes. The regeneration time for the Gallbladder meridian is between 11pm and 1am.
01:00-03:00 丑	The Liver meridian is the organ of “Life and Energy” and needs a restful night’s sleep to recover. The liver is hosting both the Wei Qi (defensive energy) and the blood. Both get purified during the night around 1am and 3am. The Liver meridian also controls the healthy qi of tendons and blood circulation in the eyes and head.

2.24 Expert Programs

The “Expert Programs” category offers 12 slots for programs individually created for you by your TimeWaver expert. Your TimeWaver expert can transfer them to your Healy, regardless of your location. The HealAdvisor Cloud enables secure data transfer between the Healy and the TimeWaver Frequency system of your TimeWaver expert through the Expert TAN. The Expert TAN procedure is described below. is displayed.

3. Additional Functions

3.1 Expert TAN

With the Expert TAN function you can give your TimeWaver expert the possibility to transfer individual programs from his TimeWaver Frequency system to your Healy or to delete previous transferred programs.

To create the Expert TAN, your smartphone needs a connection to the Internet. Generate the Expert TAN by clicking on the button “Enable?” in the Expert TAN menu, see **Figure 3.1.1** and **Figure 3.1.2**. Then you send the Expert TAN to your TimeWaver expert, see **Figure 3.1.3**, who can then transfer your expert programs to your Healy App.

If “No connection” is displayed in the Expert TAN menu, see **Figure 3.1.4**, please check your Internet connection.

3.2 Settings

In the settings menu you can activate logging using the menu item “Activate Logging”, see **Figure 3.2.1**. With the menu item “Check for updates” you can download the Healy frequency program set you purchased, see **Figure 3.2.2**. The menu item “Choose language” allows you to change the language in which the Healy App is displayed.

3.3 Information

The “Information” menu contains all the relevant information about your Healy and the Healy App. You can also open the Instructions for Use as a PDF. On the bottom there are the links to “Website”, “Privacy”, “Contact” and “Imprint”.

4. Turn Off the Bluetooth Chip

If your Healy has the Bluetooth version 1.6.15.111 or higher you can turn off the Bluetooth chip of your Healy completely. Choose your program and set your desired intensity. Now you can switch off the Bluetooth chip using the button at the top right, see **figure 4.1**. You can see that the program is still running by means of the flashing of the right LED. Once the program is finished, you can turn your Healy back on, connect to the Healy app and start a new program.

5. Change the Current Level of your Healy

We created this feature to meet the needs of electrosensitive people because statistically about a quarter of all people are sensitive to stimulation applications.

In the HealAdvisor app, you have the possibility to adjust the maximum amperage of your Healy IMF programs to your personal needs. If you are not sensitive to the application of microcurrent, you can choose “High Current” to increase the maximum amperage of the Healy IMF programs and better feel the current at frequencies below 1000 Hz.

Simply download the HealAdvisor App in the Apple App Store or Google Play Store and log in with your Healy Shop login data. Now go to “Settings” on the bottom right and enter the menu “Healy Configuration”. In the next step you can switch between the current levels of your Healy.

6. Healy Coil

The Healy Coil is a supplementary component for the Healy. You can see an example in the bottom of this page. It can be attached to the Healy and works wireless without electrode cables. The electrical currents of the Healy IMF programs flow through the Healy Coil and generate two magnetic fields with opposing field lines which cancel each other out, with the magnetic quantum potential nevertheless remaining unchanged. This is called the Aharonov-Bohm effect.

In this way "Quantum Potential Frequencies", further called QPF, are created. With these QPF, the pure frequency is being transferred to the Bioenergetic Field on a deeper layer.

Quantum Potential Frequencies can thus resonate with biological organisms without transmitting any actual physical energy; pure information is vibrating.

To harmonize the Bioenergetic Field, the Healy Coil is designed to use the IMF programs at 30-100% intensity.

In your Healy App the IMF programs are easily identified by the three dots to the upper right of the program icon.
